Financial Aid at Rock Point School

Rock Point School awards a significant amount of scholarship help each year. The only form of aid we provide is scholarships. Our goal, within the constraints of fairness and limited funds, is to make it possible for all families to meet their child's educational expenses at Rock Point School. While the School cannot promise to meet every family's request for assistance, each family's situation is reviewed thoroughly. As an institution, we do not offer any borrowing programs. Any educational loans need to be applied for and awarded independently of Rock Point School. To assist you, we have listed companies who offer financial aid to families on the attached tuition sheet.
